Informations sur le cours

Titre du cours: All-level intensive French classes all year
 Brève description: French lessons proposed by ELFI are intensive and aimed at non French speaking people
 Description: Using well known and efficient learning methods like Alter Ego+ and Edito as well as the whole set of specialized books in the French language for non French speaking people, our lessons hold full and various contents. All didactical material adopted for the class like newspaper articles, literary texts, movies and audio media bring excellent dynamics. Therefore, it offers a more practical approach of the language and allows the student to understand all the aspects of French and Swiss culture. Comprehension of the spoken language is essential; our classes include extensive oral and conversational practice. These courses help prepare for different official examinations and degrees, especially for every level of DELF and DALF, for the DHEF of Alliance Française, for TCF/TEF as well as for entrance examinations for University: the French admission examination and the French part of the ECUS examination ('Examen Complémentaire des Universités Suisses').
 Soumis: 21.08.2017
